We at Ganga Gurukulam have pledged ourselves to fulfil the vision of the Founder President that this school would become a vibrant center of learning assimilating the age old wisdom, the rich traditions and cultural values with recent advancements in the world of science & technology.

Gurukul is a place where the teacher and the taught together travel on the road to freedom, light and wisdom. They jointly explore and search the unknown horizons and strive to discover truth and wisdom. It is a confluence of mind, hearts and hands in the joint pursuit of learning. Learning takes place through listening, reflecting, assimilating and expressing. Such learning is possible only in a conducive environment of mutual love, concern and understanding. In Ganga Gurukulam we strive to achieve the healthy harmony of the ancient Gurukul tradition along with the latest development in the growing field of modern education. We recognize that every child is a storehouse of energy. The teachers must be able to ignite the spark of learning in the young minds.
